**Colour samples printed here are approximations. For actual colours, request a sample of TPO Special Colour membrane*

***Allow 8-10 Weeks delivery for special colour options (indent orders only).*

****Special Colour membranes will 'fade' over time mainly due to the ultraviolet portion of sunlight. Since most roof surfaces are exposed to variable sunlight, some areas will be more susceptible to colour changes caused by UV fading. Warranties for Special Colour membranes do not cover fading of colours.*
